

PIAA District 6

Football Play-offs 2017

Revised 9/1/16

The purpose of expanding classifications was to provide more opportunities for teams to enter and progress through the PIAA play-off system.

Determining Play-off bound teams:

PIAA District 6 football play-offs are **NOT** open tournaments. Teams qualify by earning points and must finish within the PIAA District 6 pre-determined number of seeds for each classification. **All qualifying teams should plan to enter.** Please review this with your district administration and school boards. We will contact schools beginning Week 7/Game 8 for most, to confirm school's participation if qualifying.

Total points earned, counting all 10 games played, using PIAA State-Approved Power Point Ranking System detailed below.

TIE BREAKERS

Ties in the “total points” column shall be resolved as follows:

1. Head to Head
2. Record vs. Common Opponents
3. Opponents’ Winning Percentage (all 10 games)
4. Coin Toss

FORFEITURES

The PIAA District 6 committee will hand down a decision when a team with clear intentions of fielding a program subsequently must forfeit due to numbers that make it impossible to field a team, or obvious safety concerns related to low numbers. The committee’s decision will be final.

A team forfeiting/violating a contract to better their standing or without legitimate reason as determined by the PIAA District 6 committee may face further sanctions imposed by the committee.

10 GAME SCHEDULE

As schools have been given the autonomy to create leagues in District 6 athletics, a football team unable to find a 10 game schedule risks not earning points during an open week. In addition, those that have competed against that team may not earn additional power points the week said team sits idle. The PIAA District 6 Committee will make the final decision.

OUT-OF-STATE / NON-PIAA OPPONENTS

Any PIAA District 6 school competing against a non-PIAA or Out-of-State opponent should report the school’s name, state and enrollment figures to Mr. Tom Elling (tom@pawrsl.com). Classification will be determined by comparing the school’s enrollment to the PIAA enrollment thresholds.
